

"WEIRD A.I."

by Sean Gugler

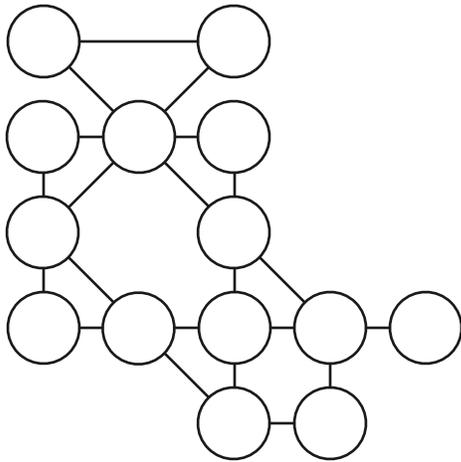

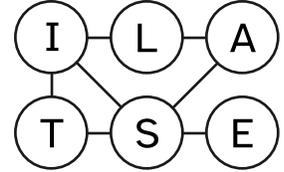

I asked for song lyrics, and not only did this Weird AI choose parodies, it added an extra unused segment in each graph. I wonder what it would have chosen if I had asked explicitly for Beatles?

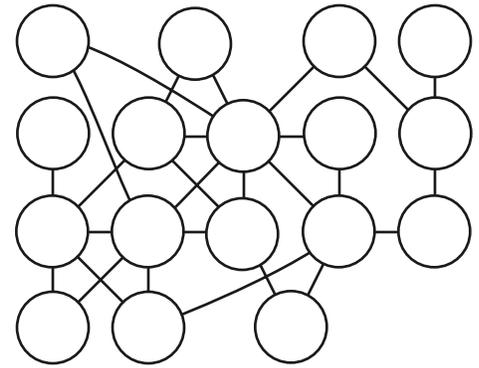

- Put the letters in nodes so that the whole phrase can be made by tracing one path.
- A letter may only appear ONCE in a graph.
- You MAY retrace your path.
- You MAY stay on a node to repeat a letter.

Example:

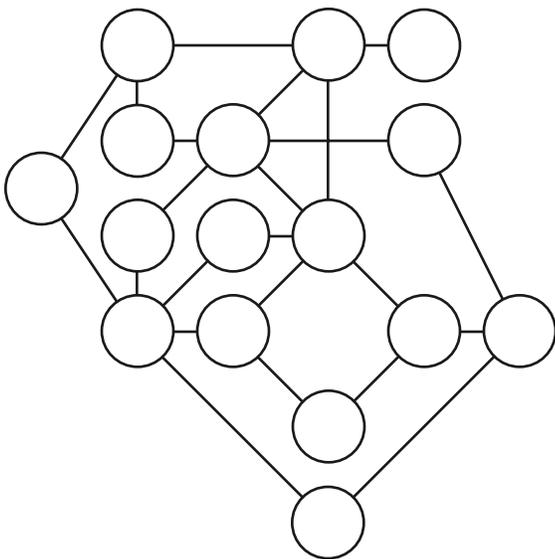

IT'S ALL I SEE!

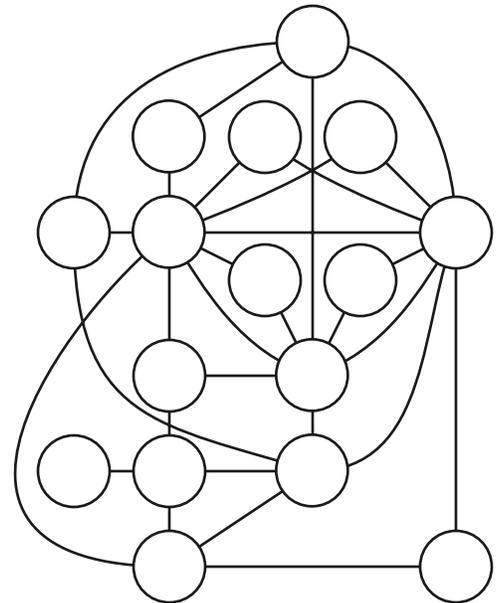

ALWAYS SAY "TO WHOM",
DON'T EVER SAY "TO WHO"

MASHED POTATOES CAN
BE YOUR FRIENDS

IT'S HARD TO
BARGLE NAWDLE ZOUSS

TONIGHT WE'RE GONNA PARTY
LIKE IT'S SIXTEEN-NINETY-NINE
